Postage Management

INVIEW™ Analytics

Make your
information
more meaningful.

Link one or multiple meters (2+) to a secure website for enterprise data consolidation.

INVIEW™ Analytics: The power to manage and control costs

With all the documents and packages flowing in and out of your offices, it can be a monumental undertaking to collect, track and manage cost information.

INVIEW Analytics provides the access and detailed visibility you need. Perfect for either a small business with a single site or an enterprise with multiple locations, INVIEW Analytics gives you the power to view and control costs for the communications and packages you send. This scalable solution helps you understand how much you spend, how you spend it and helps find hidden opportunities for savings.

It starts with your postage meter

The INVIEW Analytics suite links your postage meter(s) seamlessly to YourAccount, your secure online

Pitney Bowes site. Raw postage meter data flows directly into YourAccount, including information on postage spent, piece counts, class, and extra services.

Our analytics engine then automatically turns this raw data into actionable information. With a simple click, the information you need to help manage and report on your shipping and mailing activity is available on the spot. For multi-site operations, INVIEW Analytics can consolidate your information from every location.

Using your INVIEW Dashboard, simply pick the date ranges and filters for a custom view of what you want to know, such as allocations by location, department or client.

You're then able to generate daily, weekly or monthly reports. The pie charts, bar charts and statistics of

activity created are integral to understanding where—and how much you spend. Plus, your information is automatically backed up and stored for long-term access.

Customize your reporting capabilities.

Your INVIEW Dashboard offers numerous standard reports to help you manage your operations. When you need to customize, organize and format these report templates to your own specifications, the Custom Reporting option does it with ease.

- Cost allocations by department
- Class, piece counts and total postage spent
- Summary, detail and trend reports for postage and meters
- Daily meter activity and meter balance reports

INVIEW™ Dashboard: Understand where and how much you spend.

Specifications

INVIEW Dashboard delivers the information you need for a variety of actionable reports with automatic backup, export (Excel, CSV, PDF), and data storage up to 25 months.

Postage reports

- Monthly summary by pieces, postage and Class.
- Query Class by monthly ranges (e.g. February, March, etc.)

Account allocation reports

Detailed breakdown of pieces and postage for chargeable accounts (e.g. Account Summary Report, Account Detail Report, Account Detail by Postal Class):

- Connect+®, SendPro® P-Series and SendPro C-Series special reports: Weight Break Report
- DM Series, Connect+, SendPro P-Series, SendPro C-Series reports available within minutes of upload

Meter reports

- Daily meter activity and meter balance report
- Summary detail and trend reports for postage and meters
- DM Series, Connect+, SendPro P-Series and SendPro C-Series reports available within minutes of upload
- Connect+, SendPro P-Series and SendPro C-Series special reports: Confirmation Services and Permit reports

Total Meter Reporting

The screenshot shows an 'Account Summary Report' table. The table has columns for 'Account', 'Pieces', and 'Total Charged'. The data is as follows:

Account	Pieces	Total Charged
010185a	20	\$49,861
1234567	3	\$2,020
225M	2	\$0,000
310W	4	\$1,380
340P	1	\$0,000
35M	3	\$1,343
49ers	3	\$0,000
71	58	\$64,710
9171999991703229546143	173	\$4,520
Total	267	\$123,834

Account Allocation reports

The screenshot shows the 'My Reports' section of the dashboard. It includes a table of saved reports and a 'Set up Meter Groups Now' button. The table has columns for 'Report Name', 'Report Class', 'Report Type', 'Last Updated', 'Actions', 'Status', and 'Start Up'. The data is as follows:

Report Name	Report Class	Report Type	Last Updated	Actions	Status	Start Up
Sample	Custom	N/A		Delete Edit		
Class of Mail Sample	Custom	N/A		Delete Edit		
Sample	Custom	N/A		Delete Edit		
2002060_20150701_Trans	Custom	N/A		Delete Edit		

A callout box on the right says: 'Make it easier to run reports that reflect your organization when you create custom Meter Groups. Set up Meter Groups Now'.
